GARAGE

THE BASIC ENGINEERS

Since 1988 the organization behind Garage is producing T-shirts for several well-known brands and retailers in Europe. Garage was launched in 2010. This combination has made Garage one of the few brands to produce its own T-shirts. High quality yarns are purchased, fabrics are knitted and dyed environmental friendly. Our T-shirts are manufactured in our own certified factory, which guarantees quality throughout the entire year. All the requirements of the Corporate Social Responsibility are fulfilled and meet today's international standards.

BODY FIT O-NECK

Why Sustainability & Organic Cotton

Garage's Social Development Goals (DGS) are the 5P's: People, Planet, Prosperity, Partnership and Peace.

We strongly stand for social compliance and sustainability.

Our Bio-Cotton T-shirts are produced with 100% certified Organic Cotton Yarns. No Toxic chemicals, such as pesticides or synthetic fertilizers, have been used to produce our GM-free raw cotton. The fabrics used to produce our Garage T-shirts are free from harmful substances according to the Oeko-Tex Standard 100 & all our packaging materials use are recycled and/or biodegradable.

By buying these products, you are contributing to a better world.
